Dear Antonia:

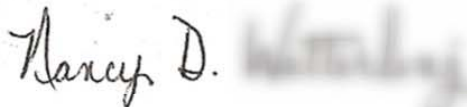

When our son got engaged and decided that he and his fiancée wanted to have their wedding reception in New Jersey, you were the first call I made. The reception arrangements were going to primarily be our responsibility, so booking Double Take was first on our list of priorities, and the other details were secondary. I called you right away to get the dates the band would be available, and we went forward from there.

Our past experience with Double Take three years prior at our daughter's wedding was so fantastic, we wanted to insure our family and friends would have another fun day. One of our guests came up to me and said she was sad that we only had two children because we threw such great parties!!

Your guidance, suggestions, professionalism and overall knowledge of what works well and what doesn't certainly makes planning a reception so much easier, and one less thing we have to concern ourselves about.

Scott and Ashley had a beautiful wedding day, with nothing but fond and wonderful memories.

Sincerely,

Nancy D. [unclear]
